company

April 6, 2022

The Honorable Pete Buttigieg, Secretary  
U.S. Department of Transportation  
West Building – 1200 New Jersey Avenue, SE  
Washington, DC 20590

Dear Mr. Secretary:

I am writing to express support for the Joint Venture of the City of Decatur and Macon County Illinois' 2022 RAISE grant application for construction of a grade separation and interchange at Brush College Road and Faries Parkway in Decatur.

Brush College Road is a critical conduit for freight, light vehicles and public transportation in Decatur and Central Illinois. **Every day thousands of people travel to work and school on Brush College Road** and encounter significant and frequent bottlenecks at the Norfolk Southern grade crossing. This crossing is one of the most dangerous in the region with multiple documented recent accidents, many with injuries.

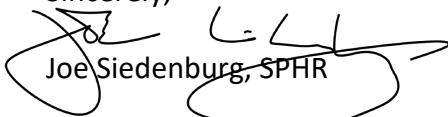

Brush College Road connects with Interstate 72 to the north serving as the connection between the Midwest Inland Port and the Interstate, **making this investment crucial to the continued development of the Port (intermodal facility) and viability and growth of existing businesses in the area.** In addition, major regional employers are located on or near Brush College Road and rely heavily on the corridor for the transportation of goods and services as well as employees.

This project will also provide much needed connectivity between residential areas and the industrial center of Central Illinois and the Community College. By offering active transportation options to nearby residents located in areas of persistent poverty, **the project will help increase access to jobs and advanced educational opportunities.**

The City of Decatur and Macon County have been strongly committed to upgrading the region's infrastructure to increase economic opportunity and create jobs in Central Illinois. To that end, significant local public investments have been made to upgrade the sewer system, revitalize downtown Decatur and dredge Lake Decatur. In addition, the City has recently enacted a motor fuel tax to invest in local roads and streets. These investments totaling over \$100 million are support the area's industry and improving the quality of life for residents. Because of these investments and the bids received on this project, the City is seeking this grant to cover the bid gap of \$16 million.

**Given the many public benefits associated with this project, I strongly urge you to support this grant. Thank you for your consideration,** and I look forward to working with you on this and other opportunities to address transportation issues across Illinois.

Sincerely,

Joe Siedenburg, SPHR

Senior Manager, Human Resources

*p.s. I've read your book, personally attended your rally in Iowa City, and strongly encourage you to run for President again!*
