APPENDIX	31

SECTION I – INTRODUCTION

The area being considered for designation as a Tax Increment Financing District (“TIF District”) is located in the west-central area of the City of Decatur, Illinois, and includes the City’s Downtown and Eldorado Street commercial corridor, as well as a large residential area in growing need of renovation and redevelopment. The main section of the proposed District is generally bounded by Fairview Avenue to the east, Waggoner Street to the north, the railroad tracks on the edge of Downtown to the east, and Decatur Street to the south. Fairview Plaza and the Colonial Mall (with the adjacent industrial facility and residential area) are also included in the proposed TIF District, as well as a section of the City near Millikin University. Excluded from the area are several blocks south of Grand Avenue between N Edward and N Main Streets, and the majority of the area between Church and Haworth Streets on the south side of North Street is located within the existing Olde Towne TIF.

The proposed TIF District covers approximately 750 acres of land, including street rights-of-way, and contains 2,211 parcels of real property. A total of 2,080 buildings, including primary and accessory structures, are located within the Project Area. The Area is mostly built-out but has seen many buildings demolished or burned down over the years. The proposed District suffers from the presence of vacant homes and lots, as well as deteriorated and dilapidated buildings, site improvements, and infrastructure.

The area as a whole is hereby referred to as the Central TIF Redevelopment Project Area, or the “Area,” and the following plan is referred to as the Central TIF Plan, or the “Plan.” The boundaries of the Area are as shown in **Exhibit A: Redevelopment Project Area Boundary** on the following page and can also be found in the **Legal Description** contained in the **Appendix**.

Exhibit A: Redevelopment Project Area Boundary

The City may consider the use of tax increment financing, as well as other economic development resources as available, to facilitate private investment within the Area. It is the intent of the City to induce the investment of significant private capital in the Area, which will serve to redevelop aging, deteriorated properties and infrastructure that will likely enhance the tax base of the community. Furthermore, in accordance with Section 11-74.4-3(n)(5) of the Tax Increment Allocation Redevelopment Act (generally referred to as the “TIF Act”), a housing impact study need not be performed since the redevelopment plan will not result in the displacement of more than nine (9) inhabited residential units. If, at some time in the future, a redevelopment project is proposed that will result in the displacement of more than nine (9) inhabited residential units, the City will prepare, or cause to be prepared, the requisite housing impact study pursuant to the Act.

The TIF Act sets forth the requirements and procedures for establishing a Redevelopment Project Area and a Redevelopment Plan. The following sections of this report present the findings of eligibility and the Redevelopment Plan and Project for the Area, as well as other findings, evidence, and documentation required by the Act.

SECTION II - BASIS FOR ELIGIBILITY OF THE AREA

A Redevelopment Project Area, according to the Act, is that area designated by a municipality in which the finding is made that there exist conditions that cause the area to be classified as a blighted area, a conservation area, a combination of blighted and conservation areas, or an industrial park conservation area. The criteria and the individual factors defining each of these categories of eligibility are defined in the Act. This section documents the relevant statutory requirements and how the Area meets the eligibility criteria as a combination of blighted and conservation areas.

Definition of a Blighted Area

The TIF Act states that a “**blighted area**” means any improved or vacant area within the boundaries of a redevelopment project area located within the territorial limits of the municipality where:”

1. **If improved**, industrial, commercial, and residential buildings or improvements are detrimental to the public safety, health, or welfare because of a combination of five (5) or more of the following factors, each of which is (i) present, with that presence documented to a meaningful extent, so that a municipality may reasonably find that the factor is clearly present within the intent of the Act, and (ii) reasonably distributed throughout the improved part of the Redevelopment Project Area:
 - A. Dilapidation. An advanced state of disrepair or neglect of necessary repairs to the primary structural components of buildings, or improvements in such a combination that a documented building condition analysis determines that major repair is required or the defects are so serious and so extensive that the buildings must be removed.
 - B. Obsolescence. The condition or process of falling into disuse. Structures have become ill-suited for the original use.
 - C. Deterioration. With respect to buildings, defects including, but not limited to, major defects in the secondary building components such as doors, windows, porches, gutters, and downspouts, and fascia. With respect to surface improvements, that the condition of roadways, alleys, curbs, gutters, sidewalks, off-street parking, and surface storage areas evidence deterioration, including, but not limited to, surface cracking, crumbling, potholes, depressions, loose paving material, and weeds protruding through paved surfaces.
 - D. Presence of structures below minimum code standards. All structures that do not meet the standards of zoning, subdivision, building, fire, and other governmental codes applicable to property, but not including housing and property maintenance codes.

-
- E. Illegal use of individual structures. The use of structures in violation of applicable federal, State, or local laws, exclusive of those applicable to the presence of structures below minimum code standards.
 - F. Excessive vacancies. The presence of buildings that are unoccupied or underutilized and that represent an adverse influence on the area because of the frequency, extent, or duration of the vacancies.
 - G. Lack of ventilation, light, or sanitary facilities. The absence of adequate ventilation for light or air circulation in spaces or rooms without windows, or that require the removal of dust, odor, gas, smoke, or other noxious airborne materials. Inadequate natural light and ventilation means the absence of skylights or windows for interior spaces or rooms and improper window sizes and amounts by room area to window area ratios. Inadequate sanitary facilities refers to the absence or inadequacy of garbage storage and enclosure, bathroom facilities, hot water and kitchens, and structural inadequacies preventing ingress and egress to and from all rooms and units within a building.
 - H. Inadequate utilities. Underground and overhead utilities such as storm sewers and storm drainage, sanitary sewers, water lines, and gas, telephone, and electrical services that are shown to be inadequate. Inadequate utilities are those that are: (i) of insufficient capacity to serve the uses in the redevelopment project area, (ii) deteriorated, antiquated, obsolete, or in disrepair, or (iii) lacking within the redevelopment project area.
 - I. Excessive land coverage and overcrowding of structures and community facilities. The over-intensive use of property and the crowding of buildings and accessory facilities onto a site. Examples of problem conditions warranting the designation of an area as one exhibiting excessive land coverage are: (i) the presence of buildings either improperly situated on parcels or located on parcels of inadequate size and shape in relation to present-day standards of development for health and safety, and (ii) the presence of multiple buildings on a single parcel. For there to be a finding of excessive land coverage, these parcels must exhibit one or more of the following conditions: insufficient provision for light and air within or around buildings, increased threat of spread of fire due to the proximity of buildings, lack of adequate or proper access to a public right-of-way, lack of reasonably required off-street parking, or inadequate provision for loading and service.
 - J. Deleterious land use or layout. The existence of incompatible land-use relationships, buildings occupied by inappropriate mixed-uses, or uses considered to be noxious, offensive, or unsuitable for the surrounding area.
 - K. Environmental clean-up. The proposed redevelopment project area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental

remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

- L. Lack of community planning. The proposed redevelopment project area was developed prior to or without the benefit or guidance of a community plan. This means that the development occurred prior to the adoption by the municipality of a comprehensive or other community plan, or that the plan was not followed at the time of the area's development. This factor must be documented by evidence of adverse or incompatible land-use relationships, inadequate street layout, improper subdivision, parcels of inadequate shape and size to meet contemporary development standards, or other evidence demonstrating an absence of effective community planning.
 - M. The total equalized assessed value of the proposed redevelopment project area has declined for three (3) of the last five (5) calendar years prior to the year in which the redevelopment project area is designated, or is increasing at an annual rate that is less than the balance of the municipality for three (3) of the last five (5) calendar years for which information is available, or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for three (3) of the last five (5) calendar years prior to the year in which the redevelopment project area is designated.
1. **If vacant**, the sound growth of the Redevelopment Project Area is impaired by a combination of two (2) or more of the following factors, each of which is (i) present, with that presence documented, to a meaningful extent, so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) reasonably distributed throughout the vacant part of the redevelopment project area to which it pertains:
- A. Obsolete platting of vacant land that results in parcels of limited or narrow size, or configurations of parcels of irregular size or shape that would be difficult to develop on a planned basis and in a manner compatible with contemporary standards and requirements, or platting that failed to create rights-of-ways for streets or alleys, or that created inadequate right-of-way widths for streets, alleys, or other public rights-of-way or that omitted easements for public utilities.
 - B. Diversity of ownership of parcels of vacant land sufficient in number to retard or impede the ability to assemble the land for development.
 - C. Tax and special assessment delinquencies exist, or the property has been the subject of tax sales under the Property Tax Code within the last five (5) years.
 - D. Deterioration of structures or site improvements in neighboring areas adjacent to the vacant land.

-
- E. The area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the Redevelopment Project Area.
 - F. The total equalized assessed value of the proposed Redevelopment Project Area has declined for three (3) of the last five (5) calendar years prior to the year in which the Redevelopment Project Area is designated, or is increasing at an annual rate that is less than the balance of the municipality for three (3) of the last five (5) calendar years for which information is available, or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for three (3) of the last five (5) calendar years prior to the year in which the Redevelopment Project Area is designated.
2. **If vacant**, the sound growth of the redevelopment project area is impaired by one of the following factors that: (i) is present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act; and, (ii) is reasonably distributed throughout the vacant part of the redevelopment project area to which it pertains:
- A. The area consists of one or more unused quarries, mines, or strip mine ponds.
 - B. The area consists of unused rail yards, rail tracks, or railroad rights-of-way.
 - C. The area, prior to its designation, is subject to
 - a. chronic flooding that adversely impacts on real property in the area as certified by a registered professional engineer or appropriate regulatory agency; or
 - b. surface water that discharges from all or a part of the area and contributes to flooding within the same watershed, but only if the redevelopment project provides for facilities or improvements to contribute to the alleviation of all or part of the flooding.
 - D. The area consists of an unused or illegal disposal site containing earth, stone, building debris, or similar materials that were removed from construction, demolition, excavation, or dredge sites.
 - E. Prior to November 1, 1999, the area is not less than 50 nor more than 100 acres and 75% of which is vacant (notwithstanding that the area has been used for commercial agricultural purposes within 5 years prior to the designation of the redevelopment project area), and the area meets at least one of the factors itemized in paragraph (1) of this subsection, the area has been designated

as a town or City center by ordinance or comprehensive plan adopted prior to January 1, 1982, and the area has not been developed for that designated purpose.

- F. The area qualified as a blighted improved area immediately prior to becoming vacant, unless there has been substantial private investment in the immediately surrounding area.

Definition of a Conservation Area

1. **“Conservation area”** means any improved area within the boundaries of a redevelopment project area located within the territorial limits of the municipality in which 50% or more of the structures in the area have an age of 35 years or more. Such an area is not yet a blighted area, but because of a combination of three or more of the following factors, the area is detrimental to the public safety, health, morals or welfare, and such an area may become a blighted area:
 - A. Dilapidation. An advanced state of disrepair or neglect of necessary repairs to the primary structural components of buildings, or improvements in such a combination that a documented building condition analysis determines that major repair is required or the defects are so serious and so extensive that the buildings must be removed.
 - B. Obsolescence. The condition or process of falling into disuse. Structures have become ill-suited for the original use.
 - C. Deterioration. With respect to buildings, defects including, but not limited to, major defects in the secondary building components such as doors, windows, porches, gutters, and downspouts, and fascia. With respect to surface improvements, that the condition of roadways, alleys, curbs, gutters, sidewalks, off-street parking, and surface storage areas evidence deterioration, including, but not limited to, surface cracking, crumbling, potholes, depressions, loose paving material, and weeds protruding through paved surfaces.
 - D. Presence of structures below minimum code standards. All structures that do not meet the standards of zoning, subdivision, building, fire, and other governmental codes applicable to property, but not including housing and property maintenance codes.
 - E. Illegal use of individual structures. The use of structures in violation of applicable federal, State, or local laws, exclusive of those applicable to the presence of structures below minimum code standards.
 - F. Excessive vacancies. The presence of buildings that are unoccupied or underutilized and that represent an adverse influence on the area because of the frequency, extent, or duration of the vacancies.

-
- G. Lack of ventilation, light, or sanitary facilities. The absence of adequate ventilation for light or air circulation in spaces or rooms without windows, or that require the removal of dust, odor, gas, smoke, or other noxious airborne materials. Inadequate natural light and ventilation means the absence of skylights or windows for interior spaces or rooms and improper window sizes and amounts by room area to window area ratios. Inadequate sanitary facilities refers to the absence or inadequacy of garbage storage and enclosure, bathroom facilities, hot water and kitchens, and structural inadequacies preventing ingress and egress to and from all rooms and units within a building.
- H. Inadequate utilities. Underground and overhead utilities such as storm sewers and storm drainage, sanitary sewers, water lines, and gas, telephone, and electrical services that are shown to be inadequate. Inadequate utilities are those that are: (i) of insufficient capacity to serve the uses in the redevelopment project area, (ii) deteriorated, antiquated, obsolete, or in disrepair, or (iii) lacking within the redevelopment project area.
- I. Excessive land coverage and overcrowding of structures and community facilities. The over-intensive use of property and the crowding of buildings and accessory facilities onto a site. Examples of problem conditions warranting the designation of an area as one exhibiting excessive land coverage are: (i) the presence of buildings either improperly situated on parcels or located on parcels of inadequate size and shape in relation to present-day standards of development for health and safety, and (ii) the presence of multiple buildings on a single parcel. For there to be a finding of excessive land coverage, these parcels must exhibit one or more of the following conditions: insufficient provision for light and air within or around buildings, increased threat of spread of fire due to the close proximity of buildings, lack of adequate or proper access to a public right-of-way, lack of reasonably required off-street parking, or inadequate provision for loading and service.
- J. Deleterious land use or layout. The existence of incompatible land-use relationships, buildings occupied by inappropriate mixed-uses, or uses considered to be noxious, offensive, or unsuitable for the surrounding area.
- K. Environmental clean-up. The proposed redevelopment project area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.
- L. Lack of community planning. The proposed redevelopment project area was developed prior to or without the benefit or guidance of a community plan.

This means that the development occurred prior to the adoption by the municipality of a comprehensive or other community plan, or that the plan was not followed at the time of the area's development. This factor must be documented by evidence of adverse or incompatible land-use relationships, inadequate street layout, improper subdivision, parcels of inadequate shape and size to meet contemporary development standards, or other evidence demonstrating an absence of effective community planning.

- M. The total equalized assessed value of the proposed redevelopment project area has declined for three of the last five calendar years prior to the year in which the redevelopment project area is designated, or is increasing at an annual rate that is less than the balance of the municipality for three of the last five calendar years for which information is available, or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for three of the last five calendar years prior to the year in which the redevelopment project area is designated.

Findings

In determining if the Area meets the eligibility requirements of the Act, research and field surveys were conducted. These included:

- Contacts with City officials knowledgeable about area conditions and history and age of buildings and site improvements.
- On-site field examination of conditions within the Area on August 17-18 and 21-22, September 7-8 and 10, and November 18, 2023 by experienced staff of PGAV. These personnel are trained in techniques and procedures of documenting conditions of real property, streets, etc., and determination of eligibility of designated areas for tax increment financing.
- Use of definitions contained in the Act.
- Adherence to basic findings of need as established by the Illinois General Assembly in establishing tax increment financing which became effective on January 10, 1977.
- Examination of Macon County real property tax assessment records.

Several days throughout the months of August, September, and November 2023, PGAV staff conducted field investigations to document existing conditions of the properties proposed for the Area. The following narrative summarizes the factors found to be present to a meaningful extent within the Area. **Exhibit B** on the following page displays the current land use of each lot in the Project Area. **Exhibits C, D, E,** and **F** show the reasonable distribution of factors throughout the Area, broken down into four distinct areas to better visualize the data: the Downtown District, the Residential Core, the Millikin University Area, and the Eastern Area. A more detailed summary of the conditions

found during field investigations can be found in **Table A: Summary of Blighting and Conservation Area Factors**.

CONSERVATION AREA FACTORS**
Central TIF Redevelopment Project Area
Decatur, IL

	Total	%
Total number of parcels	2,211	
Number of improved parcels	1,753	79.3%
Number of vacant parcels	458	20.7%
Number of Right-of-Way and Railroad parcels	14	0.6%
Total number of buildings	2,080	
Number of buildings 35 years of age or older	1,894	91.1%
Approx. number of vacant residential units	167	
IMPROVED LAND FACTORS:		
Number of buildings that are deteriorated	1,603	77.1%
Number of parcels with site improvements that are deteriorated	1,515	86.4%
Number of improved parcels with either deteriorated site improvements or buildings	1,590	90.7%
Number of buildings that are dilapidated	200	9.6%
Number of buildings that are obsolete	9	0.5%
Number of structures below minimum code	nd*	
Number of buildings lacking ventilation, light or sanitation facilities	nd*	
Number of building with illegal uses	nd*	
Number of buildings that are wholly or partially vacant	175	8.4%
Number of improved parcels with excessive land coverage or overcrowding of structures	nd*	
Inadequate utilities (Entire Project Area)	Yes	
Deleterious land use or layout (by Sub-Area)	nd*	
Lack of community planning	nd*	
Environmental clean-up	nd*	
Number of improved parcels that are taxable	1,610	91.8%
Area has declining or sub-par EAV growth	Yes	
VACANT LAND FACTORS (2 or More):		
Obsolete platting	nd*	
Diversity of ownership	nd*	
Tax delinquencies	nd*	
Number of vacant parcels with deterioration of structures or site improvements in neighboring areas	457	99.8%
Environmental clean-up	nd*	
Number of vacant parcels that are taxable	266	58.1%
Area has declining or sub-par EAV growth	Yes	
VACANT LAND FACTORS (1 or More):		
Unused quarry, mines, rail, etc.	nd*	
Blighted before vacant	nd*	
Chronic flooding	nd*	
Unused or illegal disposal site	nd*	

* Not determined.

Eligibility of Improved Parcels

1. Summary of Findings on Age of Structures

Age is a prerequisite factor in determining an Area's qualification as a "conservation area." As is clearly set forth in the Act, 50% or more of the structures must have an age of 35 years or greater to meet this criterion. The Area contains a total of 2,080 buildings, of which 1,894 buildings (91.1%) were determined by field investigation to be at least 35 years old. Both primary and accessory structures on each parcel were considered as part of the field examination. More than 50% of the buildings exceed 35 years of age; therefore, the age threshold is met for qualifying the improved property within the Area as a conservation area.

2. Summary of Findings on Deterioration

Deteriorating conditions, either site or building, were recorded on 1,590 out of 1,764 improved parcels (90.1%). Of the 2,080 total buildings located within the Area, 1,603 (77.1%) were determined to have deterioration. The field survey of exterior building conditions found defects in the secondary structural components, including roofs, windows and window frames, doors, gutters, downspouts, walls, etc. Additionally, deteriorated site improvements, such as cracked, crumbling, or weed-infested sidewalks, driveways, parking lots, etc., were distributed throughout the Area. Photographic evidence of deteriorating conditions can be found in **Attachment B** in the **Appendix**.

3. Summary of Findings on Declining/Sub-Par EAV Growth

The equalized assessed valuation (EAV) of the Project Area was analyzed for the last five years (2017-2022). The Area's EAV has grown at a lower rate than the balance of the City, as well as the CPI for all urban consumers, for four of the last five years. The Area itself also saw a decline in overall EAV from 2017 to 2018 and from 2019 to 2020. See **Table B: Comparison of EAV Growth Rates (2017-2022)** on the following page for more details.

In order to better assess EAV trends across the Area, parcels and their individual EAVs from the last five years were combined into parcel groups by removing the lot number from the end of each parcel number (ex: parcels 04-12-10-352-010, 04-12-10-352-011, 04-12-10-352-012, etc. were combined to create parcel group 04-12-10-352). Parcel groups were then mapped and symbolized based on how many years out of the last five that each parcel group's EAV growth rate was less than the EAV growth rate of the remainder of the City. These findings are displayed in **Exhibit G: Parcel Group EAV Growth Rate Compared to that of the City (2017-2022)**.

Eligibility of Vacant Parcels

1. Summary of Findings on Deterioration in Neighboring Areas Adjacent to Vacant Land

Out of the total 2,211 parcels within the proposed TIF District, 458 (21.1%) are vacant. Of those 458 vacant parcels, 457 (99.8%) are adjacent to deteriorated roadways or improved properties containing deteriorated structures and/or site improvements.

2. Summary of Findings on Declining/Sub-Par EAV Growth

See Summary of Findings on Declining/Sub-par EAV Growth (Item 3) in previous subsection titled **Eligibility of Improved Parcels** and **Table B** below.

Table B: Comparison of EAV Growth Rates (2017-2022)

COMPARISON OF EAV GROWTH RATES (2017-2022)
Central TIF Redevelopment Project Area
City of Decatur, Illinois

Assessment Year	Project Area EAV *	EAV Declined?	Balance of City **	Area Growth Rate Less Than Balance of City?	Area Growth Rate Less Than CPI for All Urban Consumers?
2017	\$ 34,865,344		\$826,671,238		
2018	\$ 34,421,850		\$819,092,644		
Annual Percent Change	-1.3%	YES	-0.9%	YES	YES
2019	\$ 34,509,415		\$827,208,257		
Annual Percent Change	0.3%	NO	1.0%	YES	YES
2020	\$ 32,999,022		\$839,508,556		
Annual Percent Change	-4.4%	YES	1.5%	YES	YES
2021	\$ 37,330,672		\$ 865,985,218		
Annual Percent Change	13.1%	NO	3.2%	NO	NO
2022	\$ 38,944,034		\$ 929,925,841		
Annual Percent Change	4.3%	NO	7.4%	YES	YES

Summary of Status of Public Utilities

Utilities and utility infrastructure were determined to have inadequacies throughout the Project Area. Per the City’s Public Works Director, much of the Area is serviced by combined sanitary and stormwater sewers, generally considered to be inadequate systems, and many of the water mains were installed more than a century ago. There is a likelihood of lead contamination in service lines due to pre-1940s construction. Although current systems serve the existing uses, they may prove inadequate to handle loads of more robust development. The City is currently in the midst of plans for sewer separation and replacement of water mains. See the Public Works Director’s letter in the **Appendix** for more detailed information.

Exhibit G: Parcel Group EAV Growth Rate Compared to that of the City (2017-2022)

SECTION III - REDEVELOPMENT PLAN AND PROJECT

Section III and Section IV constitute the Redevelopment Plan and Project for the Central TIF Redevelopment Project Area.

General Land Uses to Apply

The general land uses to apply for the Area are shown in **Exhibit H: General Land Use Plan**.

Objectives

The general objectives of this Plan are as follow:

1. To alleviate blight, ensure safe conditions, and enhance the efficiency of the infrastructure networks. This infrastructure could include, but is not limited to, utilities, sidewalks, streets, and streetlights.
2. Enhance the tax base for the City and all other taxing bodies.
3. Encourage and assist private investment and redevelopment within the Area through the provision of financial assistance as permitted by the Act.
4. Complete all public and private actions required in this Plan in an expeditious manner.
5. Maintain transparency and accountability with residents and taxing bodies by reporting annually on Area projects to the State of Illinois and the Joint Review Board.
6. Enter into agreements with private parties and public agencies that protect the long-term financial health and wellbeing of the City.

The following include some of the City's more specific objectives, initiatives, and goals for this TIF Plan and Project:

1. Community Revitalization:
 - a. Consider creative placemaking opportunities in public spaces, including common areas, parks and greenspace, and key community gathering locations throughout the TIF District.
 - b. Incorporate more greenspaces and parks to improve the quality of life of residents within the TIF and City as a whole.
 - c. Revitalize existing open spaces and locations where the community naturally gathers.

- d. Improve housing stock by pursuing a variety of programs focusing on owner-occupied housing rehabilitation, new housing developments, revolving loans for rehabilitation of rental homes, and demolition grants.
 - e. Pursue demolition of vacant and abandoned buildings that are beyond repair and repurpose the land for new housing, greenspace, or business development.
2. Economic Development:
- a. Promote façade improvement grants.
 - b. Utilize traditional pay-as-you-go TIF agreements for businesses both large and small.
 - c. Create an assistance program with service providers and lenders to help businesses build capacity.
 - d. Connect businesses to the City’s economic development and beautification programs.
3. Transportation:
- a. Make needed improvements to public infrastructure, including repairing roadways and sidewalks.
 - b. Provide sidewalks and/or walking and biking paths along major roadways to improve pedestrian safety, promote walking and biking, and increase access to nearby amenities and businesses.
 - c. Consider how residents of the TIF get around within the District, the City of Decatur, and the surrounding area, the modes of transportation most and least often used, and the improvements that can be made to promote more public transportation and walkability/bikeability.
 - d. Encourage public transit use by improving bus stop signage and adding covered waiting areas and benches at bus stops.

Program to be Undertaken to Accomplish Objectives

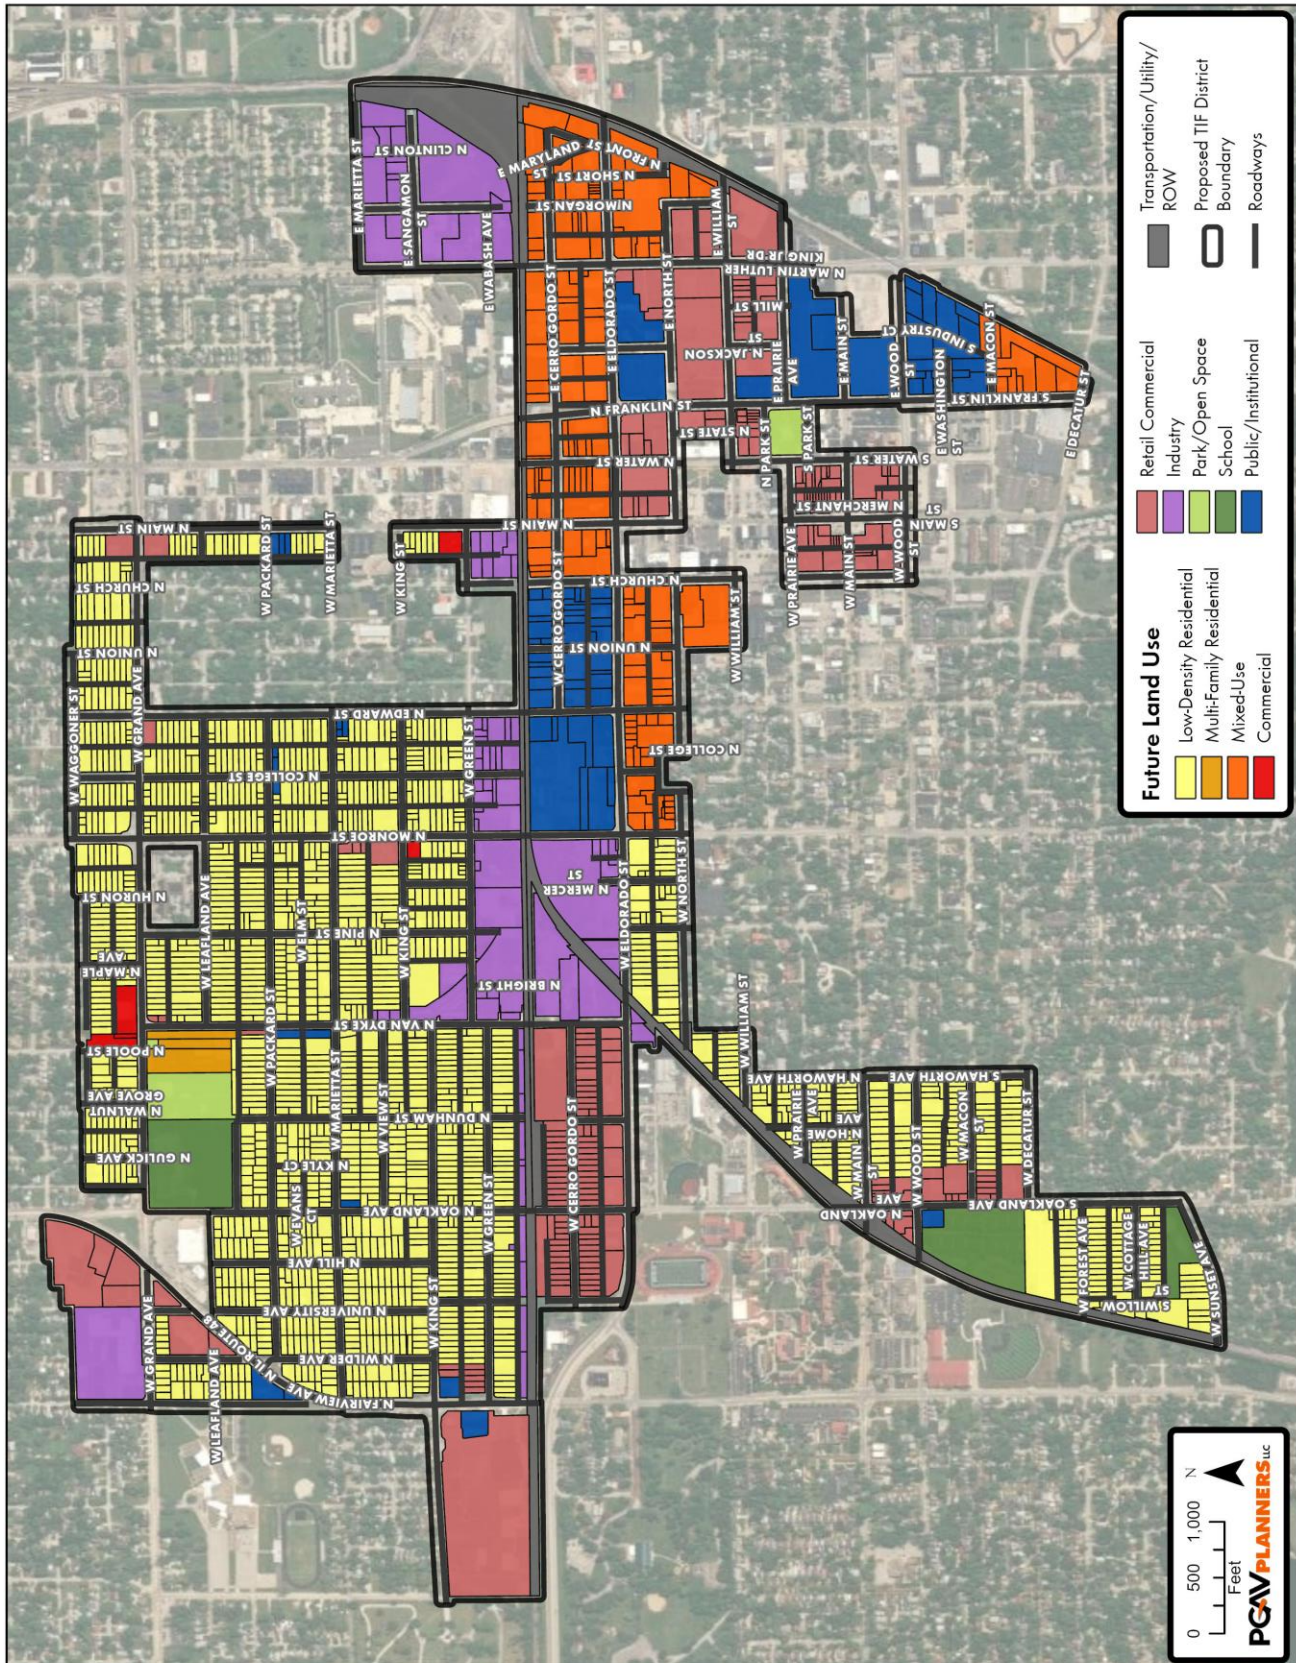

The City has determined that it is appropriate to create a program to provide financial incentives for private investment within the Area. It has been determined, through private and public project implementation experience, that tax increment financing constitutes one of the most effective means available for enabling development in the Area. Local taxing bodies are expected to benefit from the implementation of this Plan. The City will incorporate appropriate provisions within any redevelopment agreement entered into between the City and private parties ensuring redevelopment projects make progress towards achieving the objectives stated herein.

Conformance with the Comprehensive Plan and Zoning Ordinance

The General Land Use Plan conforms with the City’s Zoning Ordinance and Zoning Map, as well as the 2009 Decatur/Macon County Comprehensive Plan. The General Land Use

Plan emulates the future land uses laid out in the Decatur/Macon County Comprehensive Plan. The zoning districts for this Area include various residential, commercial, and manufacturing districts, as well as an office district and a few Planned Developments. Development in the Redevelopment Project Area shall comply with any and all applicable codes and ordinances.

Exhibit H: General Land Use Plan

Redevelopment Project

Activities necessary to implement the Plan may include the following:

1. Private Redevelopment Activities:

Construction of new private buildings and the rehabilitation, renovation, and repair of existing private buildings at various locations in the Area.

2. Public Redevelopment Activities:

Public improvements and support activities will be used to induce and complement private investment. These may include but are not limited to: street and sidewalk improvements, land assembly including site acquisition and site preparation, public utilities (e.g., water, sanitary and storm sewer facilities), traffic signalization, off-street parking, building demolition and site clearance, open space development, and marketing of properties, as well as other programs of financial assistance provided by the City.

3. Land Assembly, Displacement Certificate, and Relocation Assistance:

To achieve the objectives of the Plan, land assembly by the City and eventual conveyance to private entities may be necessary in order to attract private development interest. Therefore, any property located within the Redevelopment Project Area may be acquired by developers or the City, as necessary, to assemble various parcels of land to achieve marketable tracts, or if such property is necessary for the implementation of a specific public or private redevelopment project. Activities of this type may include the displacement of inhabited housing units located in the Project Area (see below).

Displacement Certificate:

Under Sections 11-74.4-3 (n) (5) and 11-74.4-4.1 (b) of the Tax Increment Allocation Redevelopment Act, the City hereby certifies that this Redevelopment Plan, as amended, will not result in the displacement of more than nine (9) inhabited residential units. If, at some time in the future, a redevelopment project is proposed that will result in the displacement of more than nine (9) inhabited residential units, the City will prepare, or cause to be prepared, the requisite housing impact study pursuant to the Act.

Relocation Assistance:

If households of low-income or very low-income persons inhabit any residential housing units where relocation of the occupants is required, relocation assistance will be provided to such persons. Affordable housing and relocation assistance shall not be less than that which would be provided under the federal Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 and the regulations under that Act, including the

eligibility criteria. Affordable housing may be either in existing or newly constructed buildings. For purposes of this requirement in the TIF Act, “low-income households,” “very low-income households,” and “affordable housing” have the definitions set forth in the Illinois Affordable Housing Act.

Description of Redevelopment Project Costs

Costs that may be reimbursed are defined as “redevelopment project costs” in the Act and may be amended from time to time. Itemized below is the statutory listing of “redevelopment project costs” currently permitted by the Act:

1. Costs of studies, surveys, development of plans, and specifications, implementation and administration of the redevelopment plan including but not limited to staff and professional service costs for architectural, engineering, legal, financial, planning or other services, provided however that no charges for professional services may be based on a percentage of the tax increment collected; except that on and after November 1, 1999 (the effective date of Public Act 91-478), no contracts for professional services, excluding architectural and engineering services, may be entered into if the terms of the contract extend beyond a period of 3 years.

In addition, "redevelopment project costs" shall not include lobbying expenses. After consultation with the municipality, each tax increment consultant or advisor to a municipality that plans to designate or has designated a redevelopment project area shall inform the municipality in writing of any contracts that the consultant or advisor has entered into with entities or individuals that have received, or are receiving, payments financed by tax increment revenues produced by the redevelopment project area with respect to which the consultant or advisor has performed, or will be performing, service for the municipality. This requirement shall be satisfied by the consultant or advisor before the commencement of services for the municipality and thereafter whenever any other contracts with those individuals or entities are executed by the consultant or advisor;

(i) After July 1, 1999, annual administrative costs shall not include general overhead or administrative costs of the municipality that would still have been incurred by the municipality if the municipality had not designated a redevelopment project area or approved a redevelopment plan;

(ii) The cost of marketing sites within the redevelopment project area to prospective businesses, developers, and investors;

2. Property assembly costs, including but not limited to acquisition of land and other property, real or personal, or rights or interests therein, demolition of buildings, site preparation, site improvements that serve as an engineered barrier addressing ground level or below ground environmental contamination, including, but not

limited to parking lots and other concrete or asphalt barriers, and the clearing and grading of land;

3. Costs of rehabilitation, reconstruction or repair or remodeling of existing public or private buildings, fixtures, and leasehold improvements; and the cost of replacing an existing public building if pursuant to the implementation of a redevelopment project the existing public building is to be demolished to use the site for private investment or devoted to a different use requiring private investment; including any direct or indirect costs relating to Green Globes or LEED certified construction elements or construction elements with an equivalent certification;
4. Costs of the construction of public works or improvements, including any direct or indirect costs relating to Green Globes or LEED certified construction elements or construction elements with an equivalent certification, except that on and after November 1, 1999, redevelopment project costs shall not include the cost of constructing a new municipal public building principally used to provide offices, storage space, or conference facilities or vehicle storage, maintenance, or repair for administrative, public safety, or public works personnel and that is not intended to replace an existing public building as provided under paragraph (3) of subsection (q) of Section 11-74.4-3 unless either
 - (i) the construction of the new municipal building implements a redevelopment project that was included in a redevelopment plan that was adopted by the municipality prior to November 1, 1999 or
 - (ii) the municipality makes a reasonable determination in the redevelopment plan, supported by information that provides the basis for that determination, that the new municipal building is required to meet an increase in the need for public safety purposes anticipated to result from the implementation of the redevelopment plan;
5. Costs of job training and retraining projects, including the cost of "welfare to work" programs implemented by businesses located within the redevelopment project area;
6. Financing costs, including but not limited to all necessary and incidental expenses related to the issuance of obligations and which may include payment of interest on any obligations issued hereunder including interest accruing during the estimated period of construction of any redevelopment project for which such obligations are issued and for not exceeding 36 months thereafter and including reasonable reserves related thereto;
7. To the extent the municipality by written agreement accepts and approves the same, all or a portion of a taxing district's capital costs resulting from the redevelopment

project necessarily incurred or to be incurred within a taxing district in furtherance of the objectives of the redevelopment plan and project.

8. Relocation costs to the extent that a municipality determines that relocation costs shall be paid or is required to make payment of relocation costs by federal or State law or in order to satisfy subparagraph (7) of subsection (n);
9. Payment in lieu of taxes [see Sec. 11-74.4-3 (m) of the Act];
10. Costs of job training, retraining, advanced vocational education or career education, including but not limited to courses in occupational, semi-technical or technical fields leading directly to employment, incurred by one or more taxing districts, provided that such costs
 - (i) are related to the establishment and maintenance of additional job training, advanced vocational education or career education programs for persons employed or to be employed by employers located in a redevelopment project area; and
 - (ii) when incurred by a taxing district or taxing districts other than the municipality, are set forth in a written agreement by or among the municipality and the taxing district or taxing districts, which agreement describes the program to be undertaken, including but not limited to the number of employees to be trained, a description of the training and services to be provided, the number and type of positions available or to be available, itemized costs of the program and sources of funds to pay for the same, and the term of the agreement. Such costs include, specifically, the payment by community college districts of costs pursuant to Sections 3-37, 3-38, 3-40 and 3-40.1 of the Public Community College Act and by school districts of costs pursuant to Sections 10-22.20a and 10-23.3a of The School Code;
11. Interest cost incurred by a redeveloper related to the construction, renovation or rehabilitation of a redevelopment project provided that:
 - (i) such costs are to be paid directly from the special tax allocation fund established pursuant to this Act;
 - (ii) such payments in any one year may not exceed 30% of the annual interest costs incurred by the redeveloper with regard to the redevelopment project during that year;
 - (iii) if there are not sufficient funds available in the special tax allocation fund to make the payment pursuant to this paragraph (11) then the amounts so due shall accrue and be payable when sufficient funds are available in the special tax allocation fund;

- (iv) the total of such interest payments paid pursuant to this Act may not exceed 30% of the total
 - (a) cost paid or incurred by the redeveloper for the redevelopment project plus
 - (b) redevelopment project costs excluding any property assembly costs and any relocation costs incurred by a municipality pursuant to this Act.
- 12. Unless explicitly stated herein the cost of construction of new privately-owned buildings shall not be an eligible redevelopment project cost.
- 13. After November 1, 1999 (the effective date of Public Act 91-478), none of the redevelopment project costs enumerated in this subsection shall be eligible redevelopment project costs if those costs would provide direct financial support to a retail entity initiating operations in the redevelopment project area while terminating operations at another Illinois location within 10 miles of the redevelopment project area but outside the boundaries of the redevelopment project area municipality.

For purposes of this paragraph, termination means a closing of a retail operation that is directly related to the opening of the same operation or like retail entity owned or operated by more than 50% of the original ownership in a redevelopment project area, but it does not mean closing an operation for reasons beyond the control of the retail entity, as documented by the retail entity, subject to a reasonable finding by the municipality that the current location contained inadequate space, had become economically obsolete, or was no longer a viable location for the retailer or serviceman.

- 14. No cost shall be a redevelopment project cost in a redevelopment project area if used to demolish, remove, or substantially modify a historic resource, after August 26, 2008 (the effective date of Public Act 95-934), unless no prudent and feasible alternative exists. "Historic resource" for the purpose of this item (14) means
 - (i) a place or structure that is included or eligible for inclusion on the National Register of Historic Places or
 - (ii) a contributing structure in a district on the National Register of Historic Places.

This item (14) does not apply to a place or structure for which demolition, removal, or modification is subject to review by the preservation agency of a Certified Local Government designated as such by the National Park Service of the United States Department of the Interior.

Estimated Redevelopment Costs

Table C On the following page lays out estimated costs for redevelopment projects within the proposed TIF District. The estimated costs are split into several categories, including Public Works or Improvements, Building Rehabilitation/Retrofit, Interest Costs Incurred by Developers, and Property Assembly. The costs shown are not exact figures and may change slightly as redevelopment occurs.

Table C: Estimated Redevelopment Project Costs

ESTIMATED REDEVELOPMENT PROJECT COSTS Central TIF Redevelopment Project Area City of Decatur, Illinois	
Description	Estimated Cost ^{1, 2, & 3}
A. Public Works, Improvements, Sidewalks, Utility Infrastructure, Transportation/Parking Infrastructure	\$13,309,000
B. Property Assembly, Demolition, & Site Clearing	\$8,482,000
C. Building Rehabilitation/Retrofit	\$17,763,000
D. Relocation costs	\$914,000
E. Taxing District Capital Costs	\$914,000
F. Job Training	\$731,000
G. Interest Costs Incurred by Developers (30% of interest costs)	\$7,309,000
H. Planning, Engineering, Legal, & Professional Services	\$914,000
I. General Administration	\$914,000
J. Financing Costs	\$1,096,000
K. Contingency	\$3,654,000
Total Estimated Costs ⁴	\$56,000,000

Notes:

1. All costs shown are in 2023 dollars.
2. Adjustments may be made among line items within the budget to reflect program implementation experience.
3. Private redevelopment costs and investment are in addition to the above.
4. The total estimated redevelopment project costs shall not be increased by more than 5% after adjustment for inflation from the date of the Plan adoption, per subsection 11-74.4.5 (c) of the Act.

SECTION IV - OTHER FINDINGS AND REQUIREMENTS

Area, on the Whole, not Subject to Growth and Development

The properties in the Area have not been subject to growth and development through investment of private enterprise. Upon examination of equalized assessed valuation (EAV) data for the properties to be added, the lack of investment is evident in the stagnant EAV values (see **Table D: EAV Trends (2017-2022)** below).

The below evidence presented on assessed valuation shows that the properties in the Area have not been subject to a level of private investment that would result in valuation increases.

Table D: EAV Trends (2017-2022)

EAV Trends (2017-2022)					
Central TIF Redevelopment Project Area					
City of Decatur, Illinois					
	EAV 2017	EAV 2022	Change	Percent Change	Annual Percent Change
RPA ¹	\$ 34,865,344	\$ 38,944,034	\$ 4,078,690	11.7%	2.2%
CPI ²	245.12	292.655	47.5	19.4%	3.6%
Balance of City ³	\$ 826,671,238	\$ 929,925,841	\$ 103,254,603	12.5%	2.4%

¹ Equalized Assessed Valuation (EAV) of the Redevelopment Project Area

² Consumer Price Index for All Urban Consumers. Source: U.S. Bureau of Labor Statistics

³ Total City EAV minus Project Area EAV

Would Not be Developed “but for” TIF

The properties in the Area are not reasonably anticipated to be improved without the direct participation of the City to provide funding in the form of financial incentives and infrastructure spending. Without the influence of public funding through tax increment financing, the City would not be able to redevelop and make improvements to the Area, and thus would not be able to attract new residents and businesses to the Area.

Assessment of Financial Impact

The City and Joint Review Board will monitor the progress of the TIF program and its future impacts on all local taxing bodies. In the event significant adverse impacts are identified that increase demands for facilities or services in the future, the City will

consider utilizing tax increment proceeds or other appropriate actions, to the extent possible, to assist in addressing the needs.

All overlapping taxing bodies will continue to receive property tax revenues on the base values of properties to be added to the Area during the balance of the life of the TIF program. In addition, it is reasonable to assume that the economic and financial benefits resulting from redevelopment efforts in the Area will spill into other sections of the community and generate additional revenues for the above listed government entities. Moreover, after the expiration of the TIF program, the taxing districts will receive the benefits of an increased property tax base. It is also reasonable to assume that the benefits of the increased property tax base would not occur without the implementation of the Plan and the use of tax increment financing.

Estimated Date for Completion of the Redevelopment Project

The estimated date for the completion of the Redevelopment Project or retirement of obligations issued may not be later than December 31st of the year in which the payment to the municipal treasurer as provided in subsection (b) of Section 11-74.4-8 of the Act is to be made with respect to ad valorem taxes levied in the 23rd calendar year after the year in which the ordinance approving the redevelopment project area was adopted.

Sources of Funds

The sources of funds to pay for redevelopment project costs associated with implementing the Plan will come from the increment generated by increasing property values due to new construction and renovated structures. If available, revenues from other economic development funding sources, public or private, may be utilized. These may include State and Federal programs, local retail sales tax, revenues from any adjoining tax increment redevelopment project areas, and land disposition proceeds from the sale of land in the Area, as well as other revenues. The final decision concerning redistribution of yearly tax increment revenues may be made as part of a bond ordinance.

Nature and Term of Obligations

Without excluding other methods of City or private financing, the principal source of funding will be those deposits made into the Special Allocation Fund of monies received from the taxes on the increased value (above the initial equalized assessed value) of real property in the Area. These monies may be used to repay private or public sources for the expenditure of funds made as Redevelopment Project Costs for applicable public or private redevelopment activities noted above or may be used to amortize Tax Increment Revenue obligations, issued pursuant to this Redevelopment Plan, for a term not to exceed the expiration date of this TIF Program, bearing an annual interest rate as permitted by law. To be eligible for repayment of project costs, the City Council shall first approve a redevelopment agreement detailing and approving the use of the tax increment financing and verifying its compliance with this Plan.

Revenues received in excess of 100% of funds necessary for the payment of principal and interest on the bonds and not needed for other redevelopment project costs or early bond retirements shall be declared as surplus and become available for distribution annually to the taxing bodies to the extent that this distribution of surplus does not impair the financial viability of the project. One or more bond issues may be sold at any time in order to implement this Redevelopment Plan. The City may utilize revenues from any other source, including City, State, or Federal funds, or tax increment revenues from this Project or adjoining TIF areas to pay for the costs of completing this Project.

Most Recent EAV of Properties in the Project Area

The most recent total equalized assessed valuation (EAV) for the properties in the Area is estimated to be \$38,235,896. A list of the parcel identification numbers (PINs) and 2022 tax year EAV for the parcels in the Area are included in the **Appendix as Attachment C - Property Identification Number (PIN) List & Map**. After the approval of the Plan by the City, the City will make a request to the County Clerk of Macon County to certify the base EAV for each parcel of real estate in the Area.

Estimate of Valuation After Redevelopment

Contingent on the adoption of this Plan and commitment by the City to the Redevelopment Program, it is anticipated that the private redevelopment investment in the Area, as amended, will cause the equalized assessed valuation of said Area to increase to approximately \$67,500,000. This projected value is based on a gradual increase in EAV over time as needed improvements are completed and property value growth approaches that of the rest of the City.

Fair Employment Practices and Affirmative Action

Fair employment practices and affirmative action are the same as the City's current policies.

Reviewing and Amending the TIF Plan

This Redevelopment Plan may be amended in accordance with the provisions of the Tax Increment Allocation Redevelopment Act, 65 ILCS 5/11-74.4-1, et. seq. Also, the City shall adhere to all reporting requirements and other statutory provisions.

RE: Central TIF – Utility Infrastructure

Dear Noelle,

In accordance with your request, we have reviewed the City maintained infrastructure within the proposed Central TIF area and offer the following commentary:

SANITARY SEWER

Much of the identified TIF area between Monroe Street and Oakland/Fairview is served by combined sanitary and stormwater sewers which we would generally consider to be inadequate. The City is in the final design stage of a sewer separation project for the area around Fairview/Grand shown on the attached location map.

The remaining sewers appear to be mostly separate storm and sanitary and would generally be considered adequate for the current use. More intensive development may tax some local portions of the system depending on the location.

WATER

Most of the residential water lines in the proposed TIF area are 6" with some 4". These are generally adequate for the current use but inadequate for more robust development. The age of the mains which are mostly over a century in the ground, is a significant concern although has not proven to be a major problem at this point. Being pre-1940 era watermains, there is the likelihood of lead contamination in the service lines. The City will be working to replace the residential services over the next 20 years in accordance with State and Federal mandates.

SEPARATE STORM SEWER

Separate storm sewers in the proposed TIF area appear to be adequate for the current use.

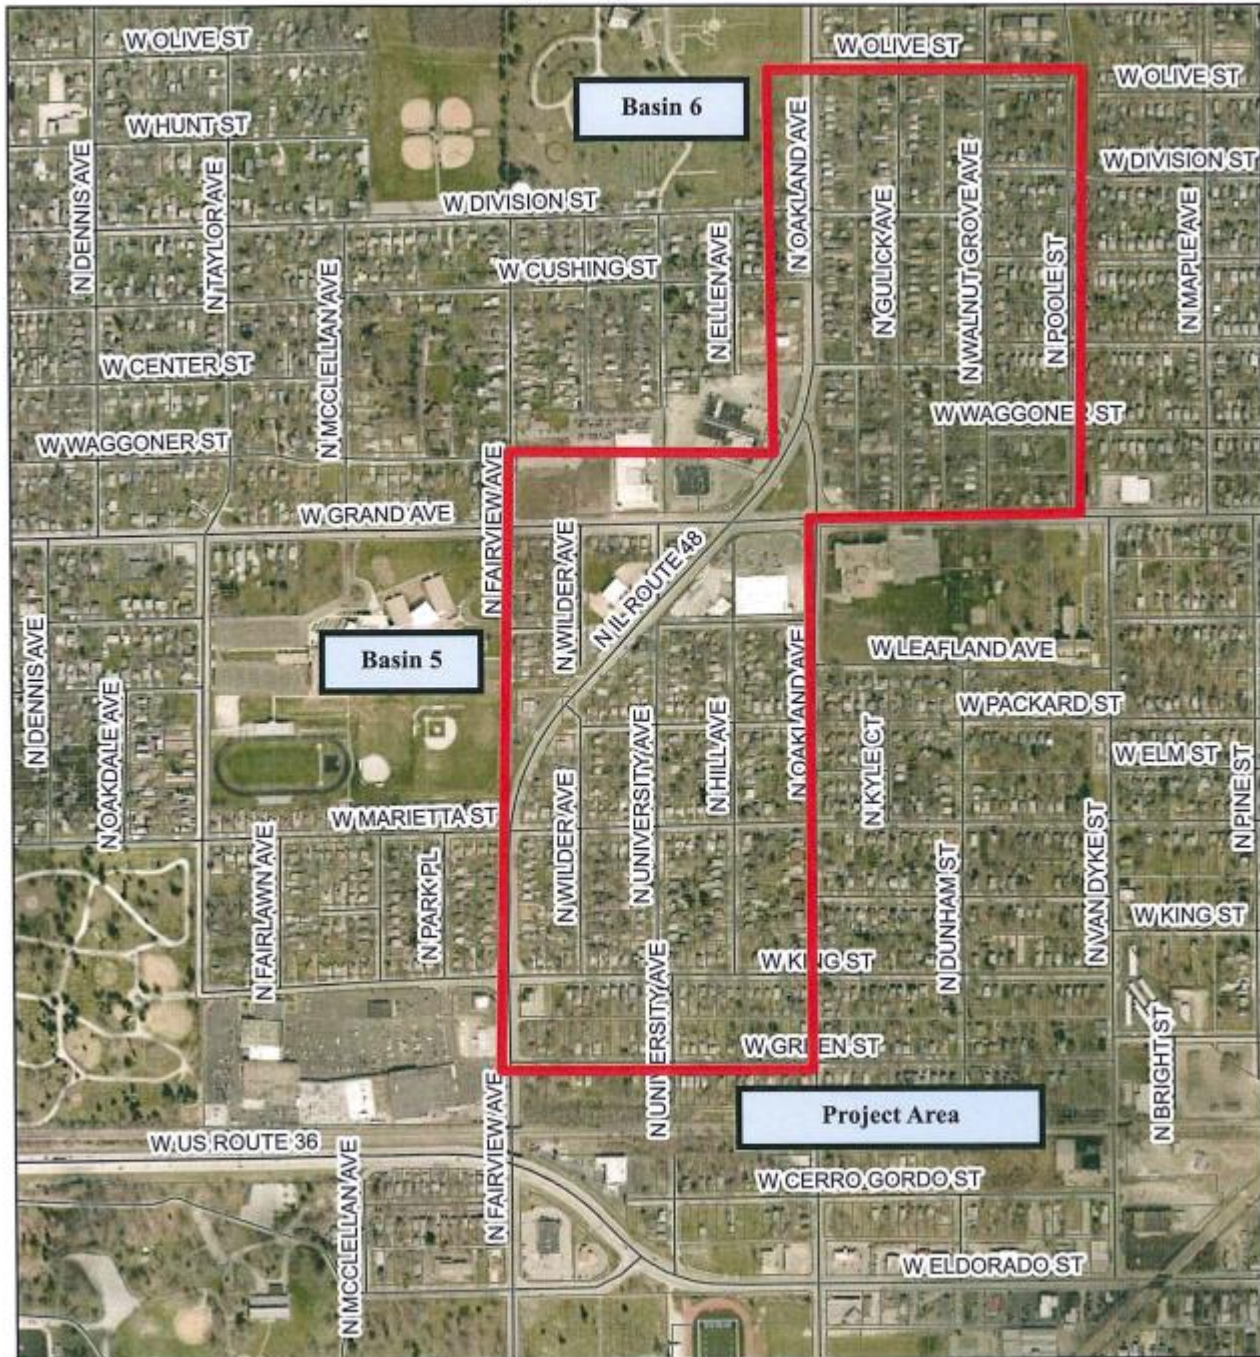

If you wish to discuss this further or need additional information, please contact me at mnewell@decaturil.gov or by phone at (217) 424-2747.

Sincerely,

A handwritten signature in blue ink, appearing to read "Matthew C. Newell".
